

The Konfydence Family Tech Contract

Our Shared Commitment to Safer Digital Decisions

Our Purpose: This agreement is about building confidence and trust together. Technology is part of our lives, and we want to use it wisely—without fear, shame, or harsh rules. We agree that anyone can fall for a trick, and the smartest thing we can do is pause, check, and support each other.

 **1. Our Core Habit: Permission to Pause** We give everyone in the family full permission to slow down.

- No message, call, or request is ever so urgent that it can't wait five seconds.
- If something feels rushed, too good to be true, or “off,” we pause first. Our family pause phrase: “This feels like a H.A.C.K.—let’s check it together.”

 **2. The H.A.C.K. Check: Our Shared Language** Before clicking, sharing, downloading, or paying, we quickly ask:

- **H – Hurry:** Are they pushing us to act right now?
- **A – Authority:** Are they pretending to be someone important (boss, bank, police) to stop questions?
- **C – Comfort:** Does this feel overly friendly or familiar to lower our guard?
- **K – Kill-Switch:** Is fear, excitement, greed, or shame trying to make us react fast?

If the answer to any is “yes,” we pause and verify together.

 **3. How We Verify** We agree to:

- Always check requests through a separate channel (e.g., call the official number, visit the real website).
- Never share passwords, codes, bank details, or personal info because of pressure or urgency.
- Treat any “don’t tell anyone” warning as an immediate red flag.

 **4. Mistakes Happen—And That’s Okay** We promise:

Konfydence

Outsmart Scams - Together

- No blame or punishment for honest mistakes.
- Telling someone early is always brave and smart.
- When something goes wrong, we focus on fixing it and learning together: Pause → Tell → Secure → Learn

5. New Apps, Devices, or Accounts Before adding something new, we agree to:

- Talk about what it does and what information it asks for.
- Decide together what feels safe to share.
- Agree on who to ask if something confusing or worrying comes up.

6. Our Family Commitment By signing below, we promise to practice awareness, kindness, and the power of pause. We won't always get it perfect—and that's part of learning. What matters most is that we look out for each other.

Konfydence Reminder Real digital safety isn't about being the smartest person in the room. It's about being the calmest—long enough to pause.
