5. Behavioral Practice Summary

(Formerly "Audit-Ready Summary")

Program Overview

- Module: Konfydence Security Skill Kit

- Framework: HACK (Hurry, Authority, Comfort, Kill-Switch)

- Focus: Behavioral resilience and pattern recognition

Participation Summary

- Class / Group:

- Date:

- Format: Scenario-based simulation and discussion

Behavioral Insights (Observed)

- Students identified HACK signals in simulated scenarios

- Students practiced pausing before decision-making

- Common pressure sources included authority and urgency cues

Representative Scenario Practiced:
"Urgent message from a trusted authority requesting immediate action."

Continuous Reinforcement Plan

- Classroom reminders using HACK posters

- Family reinforcement via Parent HACK Guide

Konfydence
Outsmart Scams - Together

Evidence Statement

This program provides documented evidence of **practiced behavioral responses under simulated pressure**, supporting modern approaches to human risk and digital resilience education.
